

Liberia's Tanker Fleet

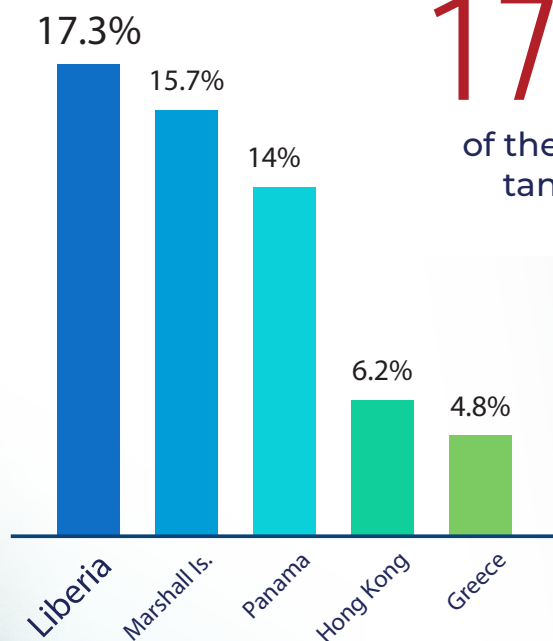

- Flag of choice for tanker vessels
- QUALSHIP 21 and MoU white listed
- Industry-leading safety record

ALL FLAGS ARE NOT ALIKE

Tanker Services

Liberia is the largest tanker flag in the world. More than 17% of the world's total oil tanker fleet (in terms of gross tons), flies the Liberian flag thereby making it the flag of choice for the industry's top tanker owners and oil majors. For example, over 33% of oil tankers owned by Greek interests fly the Liberian flag. Liberia has traditionally been considered a "tanker flag" due to its staff's highest level of experience, technical background, and industry-leading safety records.

17.7%

Liberia's Tanker Fleet

The Liberian Flag Advantage:

- Administered by former tanker industry experts in tanker operation, tanker owning and management, vetting, and specialized operation and survey experience
- White listed in every major MoU and USCG QUALSHIP 21 certified.
- Provides specialized services for tankers and crude oil carriers—Plan approvals for voyage management and ship-to-ship transfers
- Active member of INTERTANKO's Associate Members Committee
- Technical experts on MARPOL tanker requirements
- Global network of self-supporting offices and more than 550 auditors and inspectors ensure prompt service 24 hours, 7 days a week
- Focus on incorporating new technologies to ensure safety, alleviate administrative burdens, and reduce costs
